Okay, thanks, Jennifer. David, are you okay with this? The reporter's deadline is 6 PM today.

Thanks,  
Megan

Hi Jennifer and David- A reporter with the Greensboro News & Record who has been writing about local issues with PFOS, spoke with staff in the Greensboro Department of Water Resources who mentioned that they have been in contact with ORD staff. They also mentioned to the reporter that EPA might be in a position to help their efforts to create a watershed model that could predict accurately when PFOS concentrations are likely to be problematic. The reporter asked if NRMRL's Tom Speth would be available to comment on this issue from a national perspective, as the reporter would like to better understand how Greensboro's situation compares or contrasts with what we see at the national level and what other communities are doing to confront PFAS issues.

I talked to Tom and he said they have just had an initial call with Greensboro, so I think it's too early to say much, below is our draft response. Are you okay with this?

## Deliberative Process / Ex. 5

Thanks,  
Megan
